E] AWARDS

European Championship:

- Individual: first 3 athletes for each category
- By Country: Top 6 ranked nations
Ranking mode: for each discipline and for each category the scores obtained by the first 6 classified athletes will be summed.

An athlete can bring up to a maximum of 4 results (sprint, criterium, endurance and relay).

For each absolute ranking and individual category, the scores assigned are shown below:

- o 1st place 100 points
- o 2nd place 80 points
- o 3rd place 60 points
- o 4th place 40 points
- o 5th place 30 points
- o 6th place 20 points

All the best results of the first 6 places of each ranking for each category will be added.

The Technical Delegate may at any time and unquestionably change any rules of the regulation that may be inadequate in his opinion.

FI-FB and AiCS National Championship

FI-FB

- Individual: first 3 athletes for each category
- FI-FB Affiliated Club: Top 3 Ranked Clubs
Ranking mode: for each discipline and for each category the scores obtained by the first 3 classified athletes will be summed.

An athlete can bring up to a maximum of 4 results (sprint, criterium, endurance and relay). Beginners are excluded for endurance and relay races.

For each absolute ranking and individual category, the scores assigned are shown below:

- 1st place 100 points
- 2nd place 70 points
- 3rd place 40 points

All the best results of the first 3 places of each ranking for each category will be added.

AiCS

- Individual: first 3 athletes for each category
- AiCS affiliated clubs: top 3 ranked clubs

Ranking mode: for each discipline and for each category the scores obtained by the first 3 classified athletes will be summed.

An athlete can bring up to a maximum of 4 results (sprint, criterium, endurance and relay). Beginners are excluded for endurance and relay races.

For each absolute ranking and individual category, the scores assigned are shown below:

- 1st place 100 points
- 2nd place 70 points
- 3rd place 40 points

All the best results of the first 3 places of each ranking for each category will be added.

The Technical Delegate may at any time and unquestionably change any rules of the regulation that may be inadequate in his opinion.

F] ROUTES

Athletics track course 400 meters (Sports field of San Vendemiano via Maniach 3)

CRITERIUM ROUTE (red) 1.1 km

Route closed to traffic around Lake Le Bandie di Spresiano (via G. Vecellio)

ENDURANCE ROUTE 2.6 km

G] RACE REGULATIONS

1. The age category shall be determined by the year of birth of the tenderer. If there are not enough numbers in your category, the organizing committee can move the competitors to the next category.

A. General:

2. Competitors lead muscular footbikes, pushes or walks. In kicking, one foot pushes directly backwards on the ground, as in running, while the other foot is resting on the platform. Skate-type kicks or similar are not allowed. Protruding parts on the footbike are not allowed.

3. The construction of the scooter is free, but it can not have engine, mechanical gears or sail, nor sharp or protruding parts that may constitute a danger to other competitors.

4. It is recommended that racing scooters/footbikes be equipped with pneumatic wheels.

5. All footbikes must have at least one effective brake, although they recommend two.

6. It is mandatory to wear a cycling helmet during the race. Knee pads and elbow pads are optional for scooters with pneumatic wheels.

7. The race number must be attached to the handlebars of the footbike. During the race the race number must always be visible in full size. It is not allowed to fold or roll up the table.

8. At the start, both the competitor and the footbike must remain completely behind the starting line. If transponders are used, they must be mounted on the right front fork, as close to the axle as possible. In this case, the transponders must be located directly above or behind the starting line, and not in front.

9. The first part of the scooter crossing the finish line, provided that it is still in contact with the competitor, will determine the order of arrival of the race. If transponders are used, the order of arrival will be determined by the time of arrival or the time when the transponder crosses the finish line.

10. Restart or false start - The starter has the right to restart the competitors in case of false start. A false start can occur if a failure of the timing equipment occurs, in case a restart needs to be performed. The timing jury must notify the departure officer of the fault within 5 seconds. A false start is allowed, but a second false start of the same competitor will result in disqualification from that race distance. The competitor is authorized to compete in other disciplines within the program.

11. If the competitor arrives too late at the starting line of an individual time trial, it is up to the timekeeper to decide whether the competitor is allowed to start. In any case, late arrival on the starting line is considered a false departure. Those who arrive late for any of the sprint finals will be disqualified. Arriving late for mass departure events means leaving late. If you arrive in the last 10 seconds before departure, you will start from the back of the starting group.

12. Participation is entirely at your own risk. We assume no responsibility for your participation in these organized events.

13. It is not allowed to use shoes with cleats to facilitate pushing.

B. Competitors:

1. They will compete under their own responsibility, follow the instructions of the organizers and stewards and acknowledge and accept all race rules, both written and verbal rules provided prior to the race.

2. They can change a malfunctioning footbike during the race, but they have to complete the entire route with their footbike. If necessary, they must transfer the race number or transponder while off the track or circuit.

3. They must not deliberately block opponents. Any type of thrust, traction and kick is strictly prohibited, except for that used for propulsion, resulting in disqualification.

4. The choice of the guideline is free, but after leaving a space for the passage of an opponent, you can not close the space, as the footbikes overlap. Don't cut anyone's way.
5. In case of overtaking, verbally announce to the opponent the side from which he intends to pass (right to pass to the right, left to pass to the left)
6. Any misconduct, considered as unsportsmanlike behavior, may result in penalties and/or disqualifications, even if such action is not directly covered by these rules.
7. Supporters may not assist competitors, nor interfere in any way with the race itself or with any other competitor, without risking penalty or disqualification of their competitor.
8. Violation of these and other common traffic rules may result in disqualification.
9. Doping testing is an option that can be exercised by our or any independent sports authority. All participants who are legitimately required to provide samples for doping testing must comply, under penalty of disqualification.

C. Judges/Jury:

1. The host nation and the next 4 largest teams must provide 1 jury member for each race.
2. The judges may make decisions that directly affect the results of the race, modifying the predetermined route, the competition program and anything else deemed necessary for the general safety of competitors and spectators.
3. Competitors who violate the regulations or the common highway code or accept prohibited aids during the race will be penalized and possibly disqualified.
4. Manifestly unfair or unsportsmanlike behaviour may be penalised, even if it does not violate any specific rule.
5. Complaints must be submitted to the race director within 20 minutes of the publication of the results, if they concern such results. The jury's decisions will be final.

D. Additional Notes

1. Each competitor must wear a helmet. No helmet, no race.
2. If there is a rule that we have not covered in these rules, but which is included in the IKSA international rules, the IKSA rule applies.

E. Sprint rules (400 meters):

1. The starting procedure for the sprint is with one foot on the platform: running start is not allowed in the sprint.
2. No parallel support allowed - coaches, team members, supporters or other people present are not allowed to run parallel in the same direction, on or off the track, with a competitor during the sprint race. In the series of sprint finals only competitors active in the same heat can run in parallel. (This rule does not apply to autistic athletes)

F. Rules of the Criterium (7-14 km):

1. In this race the race start is allowed.
2. The starting positions will be checked by the departure judge. The first 5 or 6 rows will be pre-assigned to each country based on the number of participants from that country. Grid positions will be assigned to each national team and it will be up to the representative of the country to assign the competitor occupying these places. The current IKSA World Ranking rules can be applied by each national representative to fill their seats.
3. The assignment of grids will be announced 2 days after the closing of registrations and designated competitors must be notified at the time of registration.

4. There is a rule when the leading competitor reaches the number of set rounds, the competitor becomes a winner and the race will end for the rest of the competitors when the final line is passed in the same round as the winner did.
5. The organizer is authorized to divide individual starts into more races if the number of competitors is too high and the safety of competitors is endangered.

G. Long-distance rules:

1. In this race the race start is allowed.
2. The starting positions will be checked by the departure judge. The first 5 or 6 rows will be pre-assigned to each country based on the number of participants from that country. The grid positions will be assigned to each national team and it will be up to the representative of the country to assign their competitor who occupies that place. The current IKSA World Ranking rules can be applied by each national representative to fill their seats.
3. The assignment of grids will be announced 2 days after the closing of registrations and designated competitors must be notified at the time of registration.
4. The remaining competitors (in the starting positions not pre-assigned) must arrange themselves in the rows behind the pre-assigned ones.
5. There is a rule when the leading competitor reaches the number of set rounds, the competitor becomes a winner and the race will end for the rest of the competitors when the final line is passed in the same round as the winner did.
6. The organizer is authorized to divide individual starts into more races if the number of competitors is too high and the safety of competitors is endangered.
7. The organizer reserves the right to change the rules of the race at any time, if there is a risk to the safety or success of the race. In case of such a decision, the organizer will inform the competitors as soon as possible.

H. Rules for the relay (American Relay)

1. The starting procedure is the same as the sprint: one foot on the platform, the start of the race running is not allowed.
2. Only athletes of the same sex can start together in each battery.
3. The team is composed of 3 athletes of different sexes. The category Pupils, Cadets and Ultraveterans must belong to the same categories. The other category may be mixed.
4. For men and women the relay takes place for a time equal to 15 minutes with the exception of the pupils category (10 minutes), cadets (15 minutes) and superveterans and senior women (15 minutes)
5. It covers a circuit of 400 meters on an athletics track. The footbike acts as a witness. The exchange area is located along the straight.
6. The athlete who finishes his circuit before the exchange area must not deliberately cross the course or change the direction of his run, and must clearly signal to his teammate on which side of the track the exchange will take place.
7. The athlete who handed his bike to his teammate continues to run in the direction of his previous race and then immediately leaves the track so as not to endanger or restrain the other athletes.
8. Disqualification: If a team fails to exchange the bike in the exchange area, or endangers or will hold other riders during the exchange, or if the first member of the team starts before the starting signal, the team will be disqualified.

For anything not reported here, please refer to the IKSA regulation.

IJ RACE PAYMENT

The payment of the races and the pasta party must be made by bank transfer and must be sent by email to receive the race number.
It must be carried out at:

ITALIAN FOOTBIKE FEDERATION
